

Dear All,

Firstly, I'd like to say a massive well done to each and every one of you for coming this far already with your home learning. It's been interesting, educational, overwhelming at times and very different but you've handled it amazingly well and have done yourselves proud!

The timetable layout will remain mostly the same.

With schools closed and us all in lockdown, the tasks will have a more focus towards online resources, but I promise to provide you with as many tasks using at home materials as I can!

Please CHECK future lessons for RESOURCES you may need to gather beforehand but DO NOT complete more than asked from the timetable as we are all following this together.

We will continue to use the home learning project sheets too so keep an eye on which block we're on as we'll still be on block 3 for the first week (4th learning week) before moving onto a new one which I will provide.

Please feel free to use different links to support home learning and explore them as much as possible. Please use the new class email when ready to ask me any questions but do remember to follow the guidelines.

I hope you are safe and well and do continue to look after each other and be kind. Remember, every day is one step closer to seeing each other again!

Below are some links which you can use during different subjects. Please sign up to www.twinkl.com as we will be using materials from there. It will also give you access to ebooks, games and worksheets etc that you can print if you are lucky enough to have a printer. They are currently offering free access during school closures using the code CVDTWINKLHELPS. If you have any problems creating an account please email your class email and we will be happy to help you. I have planned each day and each lesson but some may be shorter than others so please use the time wisely using the links provided.

Marvellous Me
