PSHE- Lesson 4 -Looking after your wellbeing

(See PDF)

What Is Wellbeing?

When people feel anxious or worried about changes, they will try and control any areas of their life that they can.

This might not be the 'right' thing to do but it is often done by people trying to look after their wellbeing in the only way they know how.

When people are dealing with change, they often try and control the only things they can.

This might be what they buy from the shop or what their home looks like.
